

Vaishnavi Guntupalli

SF, CA | (510) 399-3022 | vaishnaviguntupalli@gmail.com | vaish16.github.io

SKILLS

- **AI:** LLMs, LangGraph, Prompt Chaining, Routing
- **DS/ML:** Regression, Decision Trees, Neural Networks, Optimization, MLOps
- **Languages & Tools:** Python, MySQL, Tableau, R, Azure, AWS, MS Excel, Jira
- **Communication:** Stakeholder Alignment, Cross-Functional Coordination, Road-Mapping

PROFESSIONAL EXPERIENCE

Manager, Data Science | Simplified Trade, CA

Aug 2025 -present

- Led design and delivery of AI-powered retail vision system, enabling automated extraction of product and pricing data from shelf images and projecting **~75% reduction in manual effort**
- Architected and implemented a phased, extensible AI inference system, defining workflows, milestones, and dependencies while incorporating prompt chaining and routing with structured outputs to support versioned releases and future features
- Evaluated emerging AI models and tools through proofs-of-value (POVs) to guide adoption decisions and integration into existing product workflows, balancing accuracy and system compatibility
- Drove technology scouting to assess market trends and supported client scouting via external outreach

Data Science Engineer | Simplified Trade, CA

Jan 2024 -Jul 2025

- Analyzed retail survey data across **20+ U.S. regions** to build interactive dashboards driving decisions on out-of-stock issues, contributing to acquisition of **3 new clients**
- Partnered with clients to identify business pain points and deliver tailored solutions, generating **\$1M+ in impact**
- Designed and improved survey structures to capture richer data, supporting product enhancements and client onboarding
- Built client-facing data stories and served as Tableau site administrator for 7 client accounts, managing permissions, content updates, and data refresh workflows

Assistant Manager, Decision Sciences | HSBC, India

Sept 2019 -Dec 2020

- Delivered **\$10M+ benefits** in UK Loans market by developing optimal pricing strategy using linear optimization
- Led cross-functional collaboration using Jira to track analytics initiatives, manage dependencies, and translate technical outputs into actionable decisions for senior stakeholders
- Built in-house pricing simulation tool, reduced reliance on third-party platforms and cut **license costs by 50%**
- Analyzed COVID-era payment behavior, identifying vulnerable customer segments and new market opportunities

Data Analyst, Decision Sciences | HSBC, India

Jul 2017 -Aug 2019

- Automated loan profitability estimator, improving reuse and reproducibility while **reducing effort by 50%**
- Supported similar initiatives by coordinating with cross-functional teams to align requirements and timelines
- Modeled customer loan journeys using regression and smoothing techniques to forecast loan volumes

ACADEMICS

- **University of Southern California, CA | Research Assistant, MLOps** Jul 2023 -Dec 2023
- **University of Southern California, CA | Master of Science, Analytics** Aug 2021 -May 2023
- **University of Hyderabad, India | Master of Technology, Computer Science** Aug 2015-May 2017

LEADERSHIP AND INVOLVEMENT

- Volunteer at INFORMS Gurobi San Francisco Chapter
- Active member of the Bay Area Tableau User Group
